Entering Canada: What to Expect

In addition to completing a Polymerase Chain Reaction (PCR) test within 72 hours before arriving to Canada, travellers will complete 14 days of quarantine, and two additional PCR tests. Visit the Canadian Government website for more information about [boarding flights to Canada and travel restrictions in Canada](#).

STEP 1: ARRIVAL

- Land at one of Canada's airports that is open to accept international flights (Toronto, Montréal, Vancouver, Calgary, Edmonton, Ottawa, Quebec City, Halifax, or Winnipeg).
- Upon arrival, you will be required to take a COVID-19 Polymerase Chain Reaction (PCR) test.
- In the airport, you'll also be provided with an at-home PCR test kit to be completed on day 8 of your quarantine.

STEP 2: COMPLETE YOUR QUARANTINE AT ONE OF ILSC'S QUARANTINE ACCOMMODATIONS

Proceed from the airport directly to your approved quarantine accommodation. You might need to take a domestic flight if your quarantine accommodation is in a different city than where your international flight arrived.

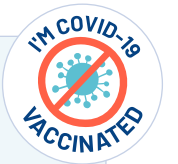

- On day 8, you'll need to complete the at-home PCR test.
- Once you receive a negative day-8 test result and have completed a full 14 days of quarantine, you'll be ready to start your in school studies and explore your new city.
